442 Beta Test Grading- User Use Statements

1.
Group name

_____

Use Cases

2.
User Identification
Mark only one oval.

( ) 4. Exemplary- Clearly identified a specific user role (ex: "As a player" "As a college student")

( ) 3. Satisfactory- General user statement (ex: "As a user")

( ) 2. Developing- Starts statement with "I will" or doesn't identify a specific user

( ) 1. No Evidence- No identification or user makes no sense (no one should say "As a Unicorn, I will..." unless you have unicorn in the context of a user)

3.
User Identification Comments

_____

_____

4.
Related to description
Mark only one oval.

( ) 4. Exemplary- Content has specifics that present the use case relevant to the description of features in user story and feature set of the project.

( ) 3. Satisfactory- Very broad in relation to the project description. High level relevance to your project features or goals.

( ) 2. Developing- Generic and not specific to your project features or goals

( ) 1. No Evidence- Not relevant (for example talking about LEDs when your project is entirely web based and focused on finding things)

5. **Related to Description Comments**

_____

_____

_____

_____

6.
Non-Technical Presentation
Mark only one oval.

◯ 4. Exemplary- Concise explanation of ideas without any non-common place jargon

◯ 3. Satisfactory- Verbose explanation with mild amounts of non-common place jargon

◯ 2. Developing- Technical level borders on beyond the target audience level, long winded explanation

◯ 1. No Evidence- Inappropriate jargon, very drawn out in explanation

7.
Non-Technical Comments

_____

_____

_____

_____

_____

8.
Not ambiguous content
Mark only one oval.

◯ 4. Exemplary- Appropriate level of detail, self contained, any sequential aspects clearly defined

◯ 3. Satisfactory- Some ambiguity in the description (2 people may have different interpretation of the use case)

◯ 2. Developing- Disjointed, disordered, considers more than one possible path of action

◯ 1. No Evidence- Not clear, includes references like "the thing" and "stuff"

9.
Ambiguity comments

Testing Procedures

10. **Target**

Mark only one oval.

( ) 4. Exemplary - The target is clear and focused aspect of the part of the project they seek to test.

( ) 3. Satisfactory - A target is identified, but is not focused on a specific aspect of the project.

( ) 2. Developing - The target is broad but related to some aspect of the project.

( ) 1. No Evidence - There is no clear target for the test presented or it is not relevant to the project.

11.

12.
Testing Procedure

Mark only one oval.

( ) 4. Exemplary - Procedure to test the target is well constructed, it is easy to follow each step.

( ) 3. Satisfactory - Procedure to test the target is clear overall, some steps may be a little unspecific.

( ) 2. Developing - Procedure to test the target is broad and not detailed to allow for easy testing.

( ) 1. No Evidence- There are some steps to create a procedure, but they have no relation to the target. Process may also be unclear.

13.

14. **Expected Outcome**

Mark only one oval.

( ) 4. Exemplary- Clear outcome of the project behavior in response to the test process that was developed. Intermediate expected outcomes are documented.

( ) 3. Satisfactory - Clear outcome of the project behavior in response to the test process that was developed. No intermediate expectations included.

( ) 2. Developing - Broad or non-detailed outcome to the process, outcome is relevant to the target.

( ) 1. No Evidence- The outcome developed is not relevant to the target being tested or the testing procedure.

15.
